

How it works! **JUST 3 STEPS!**

- 1 Submit Your Equipment:** The Equipment we consider should either be new, surplus new, refurbished, or good solid low hour used. Outdated and wore out equipment is not something we will consider. Our audience expects quality equipment from reputable companies, at a fair price, and that's all we offer. Use this link to submit your equipment: <http://petrorigs.com/sell-your-equipment/> . *After a review (usually less the 24 hours), we'll request any additional equipment information and photos we need to list your equipment. Once approved, we'll go to work to get your equipment listed and generating results!*
- 2 Petro Rigs Lists Your Equipment:** Petro Rigs will build you a custom product Landing Page where we Highlight your equipment, giving enough product information and photos to promote buyer action. Here's an example of a Custom Landing Page: <http://petrorigs.com/index.php/drilling-inventory/rig-components/cat-3406b-275kw/#.WgM8W2iPlmQ> . *We'll send you a preview of each for your final approval. After that, we go to work to generate real buyer interest.*
- 3 Our Marketing Begins to work for You:** We have developed a Geo Targeting Multi-Channel Marketing approach to reach Drilling Contractors and Oilfield Service Companies from around the World that are actively looking to buy equipment. Our marketing singles out Companies, and Drilling Industry Professionals, that are searching for, and have expressed interest in buying drilling equipment and oilfield equipment! Petro Rigs markets our website, and individual products, through Search Advertising, Opt-in Email Marketing, Industry Trade Shows, Mobile Apps, and through Social Media (139,000+ Drilling Industry Followers on social media).
