A large, complex industrial rig, likely for oil or gas extraction, is shown in a bright, outdoor setting. The rig is primarily blue, with a prominent blue metal frame. It features a dense network of pipes, valves, and mechanical components. Two large, cylindrical red filters are mounted vertically in the center. To the right, there are several blue cylindrical tanks or components. The rig is mounted on a platform, possibly a truck or trailer, as indicated by the visible wheels and structure at the bottom. The background is a clear blue sky and a flat, open area, suggesting an industrial or construction site.

A large blue industrial engine, likely a generator or power unit, is mounted on a truck. The engine is complex, with various pipes, hoses, and components. A prominent red and white safety stripe runs along the side of the engine housing. The truck is parked on a gravel lot under a clear blue sky. The sun is visible in the upper right corner, creating a lens flare effect. The overall scene is an outdoor industrial setting.
