

www.PetroRigs.com

An offshore oil rig is shown in the middle of a vast, blue ocean under a clear sky. The rig is a complex of steel structures, including a tall derrick on the left, several cranes, and various platforms. The water is a deep blue with gentle waves. The sky is a uniform light blue. A large white text watermark is centered over the rig.

A photograph of an offshore oil rig deck. The scene is dominated by a large, yellow and black drilling rig structure in the center. To the left, there's a white control cabin with a door and windows. In the foreground, there are several red valves and pipes with handwheels. A thick rope is coiled on the deck. The background shows more rig structures and a clear sky. The overall scene is industrial and complex.

A photograph of an offshore oil rig deck. The scene is dominated by a complex network of grey cables and hoses, many of which are bundled together. Yellow-painted metal railings are prominent in the foreground and middle ground, framing the view. The deck floor is cluttered with various pieces of equipment, including a valve wheel, buckets, and other tools. In the background, the blue ocean is visible through the rig's structure. The overall atmosphere is industrial and busy.

The image shows a high-angle view of an industrial deck on an offshore rig. The deck is made of weathered metal and features several long, parallel steel beams running across it. In the foreground, there are large coils of thick steel wire rope. To the right, a yellow metal cage or container is visible. In the background, there is a yellow staircase with railings leading to an upper level. The scene is brightly lit, with shadows cast across the deck. A watermark is overlaid in the center of the image.

The image shows a deck area on an offshore oil rig. In the foreground, a prominent red vertical valve or wellhead is visible. The deck is cluttered with various pieces of equipment, including a yellow horizontal beam on the left, a staircase leading upwards in the center background, and various pipes and structural supports. A sign with the word "GLASS" is partially visible on a structure to the left. The overall scene is industrial and brightly lit, suggesting an outdoor or well-lit indoor environment.

A photograph of an offshore oil rig deck. The deck is made of concrete and is cluttered with various pieces of equipment, including large coils of black hoses, metal pipes, and a red fire extinguisher. A yellow safety railing runs along the edge of the deck, overlooking the blue ocean. In the background, there are large white cylindrical structures and a red spherical tank. The sky is clear and blue. The text "www.PetroRigs.com" is overlaid in the center of the image.

A photograph of an offshore oil rig deck. The deck is cluttered with various pieces of equipment, including large black hoses, metal pipes, and several metal buckets. A prominent feature is a large, thick black hose that curves across the deck. To the right, a bundle of thick, grey cables is visible. In the background, there are yellow safety railings and a staircase leading to an upper level. The blue ocean is visible on the left side of the frame. The text 'www.PetroRigs.com' is overlaid in the center of the image.

www.PetroRigs.com

A photograph of an industrial rig deck. In the foreground, there are several large, horizontal pipes, some of which are rusted. A metal walkway with a railing is visible on the left. In the background, there is a large, cylindrical piece of machinery, possibly a separator or a tank, with a yellow safety railing around it. A sign with various symbols is mounted on a blue structure in the background. The ground is concrete and shows some shadows from the equipment.

A photograph of an industrial rig platform. The scene is dominated by a complex network of pipes and machinery. In the center, a large red cylindrical component, possibly a valve or part of a wellhead, is visible. To its right, there's a grey, textured pipe leading to a blue and white mechanical assembly. The entire structure is supported by a yellow metal railing. The background is a clear blue sky. A watermark is overlaid on the image.

The image shows a close-up view of industrial machinery, likely a generator or engine, mounted on a yellow metal platform. The machinery is complex, with various pipes, hoses, and electrical components. A control panel with three circular gauges is visible on the right side. The entire setup is enclosed within a yellow metal safety railing. A red panel is visible on the left side. The background shows a clear blue sky. A watermark is overlaid on the center of the image.
