An open metal toolbox is shown from a top-down perspective. The toolbox is filled with various items, including a black plastic basket on the left, a white rectangular box, a brown cardboard box, a tan plastic container, a clear plastic container, and several dark grey or black components. A yellow tool is partially visible at the bottom right. The toolbox has a silver metal frame and a latch at the top. A watermark is overlaid on the center of the image.

A photograph of a cluttered storage area on a rig. The floor is made of perforated metal. On the left, there are several long metal pipes or rods. In the center, there is a grey plastic tray containing a clear plastic box filled with small parts. To the right, a bright green flexible hose is coiled. In the background, there are yellow containers and a black metal rack. A red handle is visible in the lower left. The overall scene is one of organized chaos in an industrial setting.

An open black plastic case is shown from a top-down perspective. The left side of the case contains a white, rectangular electronic device with a textured surface. A black cable is coiled on top of the device. The device is surrounded by pink bubble wrap for protection. The right side of the case is empty, showing the white interior lining and a small black rectangular cutout on the right side. The case is secured with red latches. The text "www.PetroRigs.com" is overlaid in the center of the image.
